County of Dufferin Tweeting Road Closures

For Immediate Release:

Orangeville, ON – January 11, 2020

In an ongoing effort to enhance our customer service to Dufferin residents, the County of Dufferin is registered on twitter.com and publishing road closures. “The winter months see an increased number of road closures and it is important to keep residents informed”, says Warden Allen Taylor. As soon as County staff are notified of a closure, a one-line message is published via cell phone and twitter is automatically updated.

If you already have a Twitter account, visit <http://twitter.com/dcroads> and click the Follow button. If you don't have a Twitter account you can sign up at twitter.com or send “Follow dcroads” as a text message on your cell phone to 21212.

PLEASE NOTE that your cellular telephone provider may charge you for incoming and outgoing SMS (text) messages. Please check with your cellular provider before signing up with Twitter as any charges associated with following the DCRoads Twitter account are your responsibility.

Road closure information via Twitter is provided by the County of Dufferin but it does not guarantee absolute accuracy regarding timing. You can also obtain road closure and severe weather conditions by calling 519-941-6991 or 1-877-941-6991 or by visiting www.dufferincounty.on.ca.

Questions regarding this service can be directed to Pam Hillock, County Clerk or Trevor Lewis, Director of Public Works at 519-941-2816.
